Friday	22.05.2020		End of students' review of results of EP 2 (mandatory)
Tuesday	23.06.2020		End of objection period
Tuesday	23.06.2020		Application deadline for 'examination joker card'
30.03. - 17.04.2020		School holidays.	

Special time schedule for the **Institute of Electrical and Information Engineering** and the **Institute for Materials Science**

At the Institute of Electrical and Information Engineering written examinations take place during the six consecutive weeks of the lecture-free period immediately before the beginning of the lecturing period. In the Winter Semester examinations take place from 24.02.2020 until 04.04.2020.

The period for oral examinations comprises the whole lecture-free period plus the last week of the lecturing period of the Winter Semester plus the first two weeks of the lecturing period of the following Summer Semester.

For examiners - the following deadlines from the table above apply for all examinations:

- Checking registrations / binding admission: deadline for the 1st examination period
- Correcting examinations and entering the results: deadline for the 2nd examination period

For students - the following deadlines from the table above apply for all examinations:

- Registration for examinations: deadline for the 1st examination period
- Reviewing your admission: deadline for the 1st examination period
- Reviewing the results: deadline for the 2nd examination period
- End of the objection period: deadline for the 2nd examination period
- Joker card applications: deadline for the 2nd examination period

The examinations of the **Institute for Materials Science** are offered only once per semester (however, all examinations are offered each semester). The examinations are distributed over the first and the second examination period. During the first registration period, students may register for examinations in either examination period.

Special time schedule for the distance-learning programme **Master School Management and Quality Development**

The module examinations of this distance-learning programme are offered only once per semester (however, all examinations are offered each semester). They take place directly after the compulsory course work. There is no online registration for examinations.
